INTRODUCTION

Even though it's officially spring, it feels like the weather hasn't quite made up its mind—one day it's sunny, the next there's a fresh layer of snow.
While we wait for the real spring to settle in, we've put together a few helpful updates to brighten your month.

This April, we're highlighting a limited-time offer: a 15% discount on new Microsoft Copilot subscriptions for businesses looking to boost productivity with AI.

We're also inviting you to our free cybersecurity webinar—if you haven't registered yet, now's a great time!

And in this month's cybersecurity tip, we're focusing on the importance of employee awareness training and how it can help prevent costly security incidents.
Let's get into it!

DID YOU KNOW?

You Can Save 15% on New Microsoft Copilot Subscriptions Until June 30!

We're excited to offer a 15% discount on new Microsoft Copilot subscriptions for businesses with 10 to 300 seats. This special offer is valid for 12 months and runs through June 30, 2025.

Cybersecurity isn't just an IT issue—it's a business risk that's growing every day. Small and mid-sized businesses are increasingly being targeted, often because they lack the tools and training to spot and stop an attack.

If you're an SMB owner, executive, or manager, this webinar is for you. Join us for a free 30-minute session on Wednesday, April 23, 2025, at 2:00 PM EST, where we'll break down real-world threats, clear up common misconceptions, and share actionable tips to help protect your business.

Register now if you haven't already, and share it with anyone who might be interested.

There will be a draw for a GoPro and YubiKey security keys for those who attend—because getting secure should come with a little reward!

CYBERSECURITY TIP OF THE MONTH

Train Your Team to Be Your First Line of Defense!

Many cyber incidents start with a simple mistake—like clicking a malicious link or falling for a phishing email. That's why employee education is critical.

We offer a [Security Awareness Training Program](#) designed to help your staff recognize threats, avoid common traps, and build safer habits online.

From phishing simulations to practical tips, our program gives your team the tools they need to help protect your business from the inside out. Let us know if you'd like to learn more or get started!
